A team member bought a Cubii and we saw him lose 19lbs in only 3 months. He felt more alert, happy, and energetic. That's what triggered us to get 20 more for the team!

One of the things that makes it so great is that everyone in the office has one so we have this camaraderie around it and compete with each other on the mobile app.

Our people are everything for us and the results with Cubii have been phenomenal. We've realized that if Cubii is something that makes our employees just a little more productive and happy, it has already paid for itself and then some more.

- Ashish Rangnekar, CEO, Benchprep
